

ALFORD ACCESSORIES

Cable Reel Set

A lightweight system designed for use with a remote firing system or Shock Tube.

Part No. CR1010 NSN: 4933-99-937-0617

Magnet Assembly Set

A set of ten (10) magnets with Velcro loop attached to one side and used to affix charges to magnetic/ferrous targets. Each magnet is 50 x 20 x 8 mm

Part No. CP0007 NSN: 1385-99-770-6189

Rover Stand™

A stand for DemiMod and MiniMod which gives the charge four stable legs. The stand can be rotated 360° to assist with positioning against the target. Breachers Tape or HydroTape can be affixed to the feet to support firm placement.

Four (4) stands per pack Part No. MM4918 NSN: 1375-99-173-1227

Rex Stand™

A larger stand for use with the larger mod charges (QMod™, MajorMod™, and MLVD™). The REX stand can be rotated 360° to assist with positioning against the target.

One (1) stand per pack Part No. MM3901

Mod Family Tripod Mount Set

This mount enables Mod family products to be attached to a tripod for improved positioning relative to the target.

Five (5) per pack Part No. CP1901

Mod Charge Mount Set

A charge placement system for AlphaMod, DemiMod, and MiniMod allowing optimal charge orientation using specialist adhesive tape, tripod mounts, or strong rare earth magnets. The full kit (CP1902) includes a rare earth magnet, while the basic kit (CP1903) does not.

Full Kit Part No. CP1902 NSN: 1375-99-166-6481 | Basic Kit Part No. CP1903 NSN: 1375-99-166-6481

Pluton™ 45 Degree Stand

Enables improved positioning of the Pluton shaped charge. Operators can clip multiple stands together to create an array of Pluton charges suitable for the target size. The stand also has a fixing so that it can be deployed by a robot.

Part No. PS3901 NSN: 1375-99-840-5796

Dectcord Cutter

This cutter is designed to fit comfortably in your hand and is equipped with a steel cutting blade. It features a unique automatic lock that secures the tool when it is not in use, and it fits into standard pouches. The blade does not cut against a hard

One (1) per pack Part No. MT1001

Dectcord Clip™ | Mini Dectcord Clip™

Used to connect detcord when rigging multiple charges or to clip sections of detcord together. Made from soft plastic, they can be used while wearing gloves. Includes a clip for joining detcord - Dectcord Clip (DC1020) also features a cleat to secure detonator leads.

Dectcord Clip

Twenty (20) clips per pack

Part No. DC1901 NSN: 1375-99-373-0757

Mini Dectcord Clip

Twenty (20) clips per pack

Part No. DC2901 NSN: 1375-99-789-6461

Dectcord Junction Clip™

Used in conjunction with Mini Dectcord Clip™ and Dectcord Clip™, Dectcord Junction Clips™ allow operators to change direction with the detcord to rig up multiple charges.

Twenty (20) clips per pack Part No. DJ1901

Dectcord Loop Booster™

The Loop Booster™ enables the reliable detonation of RDX-based sheet explosives and plastic explosives using detcord. It is non-magnetic and supplied in two halves, top and bottom.

Twenty (20) per pack Part No. DB1901

Plain Detonator Adaptor (PDA)™

PDA crimps into a plain detonator, providing a more reliable way of linking charges and a more secure and waterproof method of attaching detcord.

Packs of 20 or 1,000 Part No. DA1020 NSN: 1375-99-668-6505

Split Screw and Dummy Detonator Set™

The Split Screw™ used in conjunction with the PDA provides an effective way of securing the detonator into the charge without risk of the detonator becoming loose or falling out (detonator not included). The Dummy Detonator allows you to set up the charge to ensure the explosive can accommodate the detonator effectively. The dummy detonator is replaced with a live detonator when ready.

One (1) per pack Part No. CP3901 NSN: 1385-99-471-2589

Detonator Gland Nut

For use with Alford tools underwater. It offers enhanced protection against water ingress compared to the traditional Split Screw Adaptor and Dummy Detonator. The Detonator Gland Nut is installed in place of the Split Screw Adaptor. Additionally, it can also be used on land as a Split Screw alternative.

One (1) per pack Part No. GN1902
