

MNB

MINE NEUTRALISATION BELT

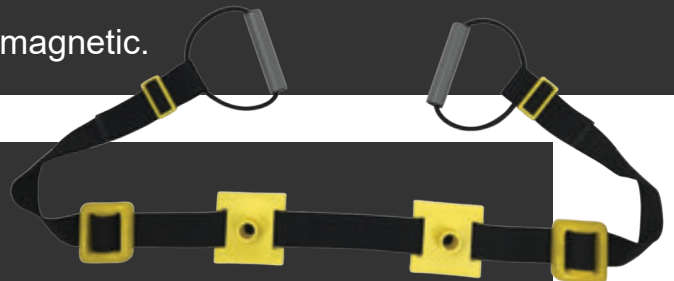

Maritime EOD Placement Solution

The Mine Neutralisation Belt™ (MNB) is a maritime EOD solution that allows secure and efficient placement of Alford explosive charges underwater.

MNB comes as a kit with two Vulcan Mine Belt Adaptors. These enable the secure attachment of a single Vulcan™ charge, equipped with an underwater standoff capsule, to the target.

All components are non-magnetic.

- Dimensions: 2m x 5cm
- Total kit weight: 2.7kg
- NEQ: n/a
- Colour: Webbing - black; Vulcan adaptor - yellow; Buckle - yellow
- Kit contents: 1 x webbing belt | 2 x 1kg weight | 2 x adjustable handle | Buckle | 2 x Vulcan adaptor
