

# PLMEOD

## Pluton Maritime EOD Kit - PLMEOD

PLMEOD™ is a specialised 65mm shaped charge system for countermining and deflagration in maritime environments. Additional projectiles are available for disruption tasks and stand-off attacks.

The kit includes three Pluton Tool Roll Sets, each containing three complete charge systems with projectiles, plus ancillary items to aid in positioning and attaching to the target, all housed in a sturdy transit case.

A user-filled system, so no logistical burdens

Variable explosive load and highly modular

Powerful effect for a low NEQ

Copper JFC & EFP | 2 Magnesium JFC variants |  
Liquid Projectile

# Performance

You can equip Pluton with one of five projectiles, depending on the nature of your task. The following are included in the PLMEOD kit as standard:

**Copper JFC** - countermining

**Magnesium JFC** - low order of thick-cased or buried UXO

**Magnesium High Performance JFC** - low order of thick-cased or buried UXO, providing greater penetration than the Magnesium JFC

These projectiles can be purchased separately:

**Copper EFP** - stand-off attack

**Liquid Projectile** - disruption

# Specifications

## Charge Specifications

- Diameter: 81.25mm
- Weight loaded: 415-465g per charge
- Minimum explosive load: 250g PE
- Maximum explosive load: 300g PE

## Kit contents

9 x Pluton charges  
9 x Underwater Stand-Off Capsules  
9 x Modular Weapon Stands  
9 x Copper JFC  
9 x Magnesium JFC  
9 x Magnesium High Performance JFC  
Loading Kit | Aluminium legs | PDAs  
Nylon pouch | Transit case
